SUMMARY

This summary should be read as an introduction to the full text of this document and any investment decision relating to the Offer should be based on the consideration of this prospectus as a whole. Where a claim relating to information contained in this prospectus is brought before a Court, a plaintiff investor might, under the national legislation of an EEA State, have to bear the costs of translating this prospectus before legal proceedings are initiated. Civil liability attaches to those persons who are responsible for this summary, including any translation of this summary, but only if this summary is misleading, inaccurate or inconsistent when read together with other parts of this prospectus.

The Offer

Albion Development VCT PLC raised a total of £33.3 million through the issue of Ordinary Shares and C Shares between 1999 and 2004. The C Shares were converted into Ordinary Shares in March 2007. To date, dividends of 49.8 pence and 35.7 pence per Share have been paid out to Ordinary and C Shares respectively and the Net Asset Value Returns of both classes of Share have outperformed the FTSE All Share Index since launch.

Under the Offer, investors may subscribe for a new class of D Shares, the proceeds of which will be invested in accordance with the Company's investment policy as a separate pool, but which will be merged with the existing Ordinary Shares on the basis of their respective Net Asset Value per Share after approximately 5 years.

The investment policy

The Company's investment policy is intended to provide investors with a regular and predictable source of dividend income combined with the prospect of long term capital growth.

This is achieved through allowing investors the opportunity to participate in a balanced portfolio of lower-risk, often asset-backed investments, providing a strong income stream, combined with investment in a smaller number of higher-risk companies with greater growth prospects. It is the Company's policy for Investee Companies normally not to have any external borrowing with a charge or security ranking ahead of the Company. Up to two-thirds of the Company's qualifying assets by cost comprise loan stock secured with a first charge on the investee company's assets.

Early Investment Offer

Successful subscribers for D Shares who apply before 12 noon on 23 December 2009 will be entitled to receive 1 additional D Share for every 100 D Shares subscribed for under the Offer, reducing the overall price per D Share to approximately 99 pence per D Share. D Shares allotted under this first allotment are expected to be admitted to dealing within 10 business days after allotment. The cost of additional D Shares allotted in this way will be funded by the Manager out of the 5.5 per cent. fee under the Offer Agreement.

Tax benefits to investors

For the current tax year to 5 April 2010, income tax relief at 30 per cent. on the amount invested (subject to a current annual maximum of £200,000) is available to private investors who are over 18 and reside in the UK, who have a UK income tax liability and who subscribe for shares in a VCT in their own name, provided the shares are held for a minimum of 5 years.

In addition, such private investors in a VCT receive the following tax benefits in respect of new and existing VCT shares, subject to a maximum investment of £200,000 in any tax year, irrespective of the holding period of the investment;

- dividends paid by a VCT are free of income tax; and
- capital gains made upon disposal of shares in a VCT are free of tax.

The Manager

- The Manager of the Company, Albion Ventures LLP, was formed in January 2009 by the executive directors of Close Ventures Limited when they bought the business, which had been formed in 1996, from Close Brothers Group plc. The team, the investment approach of Albion Ventures and the investment policy of the Company, remain unchanged.
- Albion Ventures, is one of the market leaders in the area of VCT investment, managing funds, principally seven venture capital trusts, with net assets of approximately £200 million (as at 28 September 2009, unaudited) under management, comprising Albion Venture Capital Trust PLC, Albion Protected VCT PLC, Albion Technology & General VCT PLC, Albion Income & Growth VCT PLC, Crown Place VCT PLC, Albion Enterprise VCT PLC and the Company. Albion recently won “VCT of the Year” at the 2009 Investor All Stars Venture Capital Awards and has been nominated for “VCT Manager of the Year” at the 2009 British Private Equity Awards.
- The Manager has an active policy of returning cash to shareholders through dividends and share buy-backs. To date, £103.4 million has been returned in this way to shareholders in the VCTs it manages.

Investment of funds raised

- The funds raised through the issue of the D Shares will be invested so as to comply with the new VCT rules and in accordance with the current investment policy of the Company. Those investments which are permitted for both the existing Ordinary Shares and the new D Shares will be allocated between them in the ratio of funds available for investment. The merger of the two classes of Share will be at the Directors’ discretion, but is expected to occur approximately 5 years from the closing of the Offer.
- The Manager estimates that, of the investments it has made across all of its VCTs over the past three years and which qualified under the VCT rules then in force, approximately 70 per cent. by value would qualify under the current legislation.

General

- The maximum qualifying amount which an individual may invest in the Company and in any other VCT in the current tax year is £200,000. The minimum investment under the Offer is £5,000 and applications to subscribe for D Shares should be in multiples of £1,000.
- The annual management fee charged by the Manager is 2.25 per cent. of the Net Asset Value of the Company. In addition, the Manager will be entitled to an annual management performance incentive in respect of the D Shares of 20 per cent. of the excess of the Total Return over a target minimum return of 6.5 pence per annum comprising the aggregate of all dividends and the change in Net Asset Value, starting at the Offer price.
- Introductory commission is being offered to authorised financial intermediaries as either an initial one-off introductory commission of 3.0 per cent. or an initial introductory up-front commission of 2.5 per cent. plus additional annual trail commission payments of 0.25 per cent. for up to four years following subscription, provided that the intermediary continues to act for the investor.

RISK FACTORS

Prospective investors should carefully review the following risks which the Directors consider to be material at the date of this document in relation to the D Shares, and more generally, closed-ended investment funds of the same type and profile as the Company.

Prospective investors should consult their stockbroker, bank manager, solicitor, accountant or other independent financial adviser authorised under the FSMA before investing in the D Shares.

General

Prospective investors should be aware that the value of D Shares in the Company and the income from them can fluctuate. In addition, there is no guarantee that the market price of shares in VCTs generally will reflect their underlying Net Asset Value. Past performance is not a guide to future performance. An investment in D Shares is only suitable for investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to be able to bear any losses which may arise (which may be equal to the whole amount invested). Prospective investors should therefore consult an independent adviser authorised under the FSMA before investing.

Having regard to the Company's investment objectives and the tax reliefs available, Albion Development VCT should be considered as a long-term investment. Investing in a VCT such as Albion Development VCT, which itself generally invests in smaller unquoted companies, carries particular risks. The Company and the Directors consider the following risks to be material for potential investors, but the risks listed below do not necessarily comprise all those associated with an investment in the Company and are not set out in any order of priority. Additional risks and uncertainties currently unknown to the Company and the Directors (such as changes in legal, regulatory or tax requirements) or which the Company and the Directors currently believe are immaterial, may also have a material adverse effect on the financial condition or prospects of the Company or the trading price of shares.

Taxation risk

- It is the intention of the Directors and the Manager that Albion Development VCT will be managed so as to qualify as a VCT. A failure to meet the qualifying requirements for a VCT could result in:
 - (i) investors being required to repay the 30 per cent. income tax relief received on subscription to the D Shares;
 - (ii) loss of income tax relief on dividends paid (or subsequently payable) by the Company;
 - (iii) a potential liability to tax on capital gains on a disposal of D Shares; and
 - (iv) loss of tax relief previously obtained in relation to corporation tax on capital gains made by the Company.

Further details of the taxation implications of an investment in Albion Development VCT are given in Part II. Failure to meet the qualifying requirements could, in addition, result in a loss of the listing of the D Shares.

- The levels and bases of taxation may change and such changes may be retrospective. The tax reliefs referred to in this document are those currently available and their value depends on the individual circumstances of investors.
- The sale of D Shares within 5 years of their subscription will result in some or all of the 30 per cent. income tax relief available upon investment becoming repayable. On this basis, investing in D Shares should be considered a long-term investment.
- Any realised losses on the disposal of D Shares cannot be used to create an allowable loss for capital gains tax purposes.

Investment risk

- The value of the D Shares may go down as well as up and investors may not receive back the full amount invested.
- No guarantee is given or implied that the investment objectives or the realisation strategies set by the Company will be achieved. Furthermore, the Company's ability to obtain maximum value from its investments (for example through sale) may be limited by the requirements imposed in order to maintain the VCT status of the Company (such as the obligation to have at least 70 per cent. by value of its investments in Qualifying Investments).
- The Company's investments are and will be in companies whose securities are not publicly traded or freely marketable and may, therefore, be difficult to realise and more volatile than the securities of larger, longer established businesses.
- Investee Companies include younger, fast-growing, unquoted companies undergoing significant change. Such businesses are usually exposed to greater risks than lower-growth businesses and therefore involve a higher degree of investment risk as they are more fragile and may not produce the hoped-for returns.
- Technology related risks are likely to be greater in early, rather than later, stage technology investments, including the risks of the technology not becoming generally accepted by the market, or the obsolescence of the technology concerned, often due to the greater financial resources available to competing companies.
- The success of some investments may be based on the ability of Investee Companies to establish, protect and enforce intellectual property rights, those rights being broad enough to protect proprietary interests and the rights not infringing third party patents.
- A charge given to the Company over an asset will not always provide full capital protection for an investment.
- The leisure sector, where a number of the Company's asset-based investments may be made, is sensitive to any further down turn in the economic environment.
- The restriction of investment to companies having less than 50 full time employees and the £2m cap on the amount of funds which a company can raise from VCTs, Enterprise Investment Schemes and corporate venturing funds in a 12 month period, may limit the number of new investment opportunities available, and may increase the level of risk within the portfolio of companies in which the Company invests.

Share liquidity risk

- Although the D Shares will be listed on the Official List and traded on the London Stock Exchange, there may not be a liquid market in the D Shares and there may not be two competing market makers. It may, therefore, prove difficult to realise the investment. This factor may be exacerbated by the fact that any purchaser of existing Shares in the Company, as opposed to a subscriber for D Shares pursuant to the Offer, will not qualify for income tax relief at 30 per cent. of the amount invested.

Discount to Net Asset Value

- The market value and the realisable value of the D Shares are likely to fluctuate. Furthermore, as the shares of most VCTs trade at a discount to their underlying net asset value and because there is normally a difference between the middle-market price and the price at which shares in VCTs can be sold (known as the "spread"), there is no guarantee that the market value of a D Share will fully reflect the underlying Net Asset Value per D Share.

Accounting policies

- Statements made in this document concerning returns to Shareholders are based on current UK generally accepted accounting practice ("UK GAAP"). UK GAAP is likely to be subject to change, for example through ongoing convergence with International Financial Reporting Standards. Any changes to UK GAAP may affect the Company's ability to provide returns to Shareholders as envisaged in this document.

Dividends and income generated by the D Shares

- The Company will only pay dividends on D Shares to the extent that it has revenue or capital profits available for that purpose. A reduction of income from the Company's investments may adversely affect the dividend payable to Shareholders. Such a reduction could arise, for example, from lower dividends or rates of interest paid on the Company's investments, or even lower bank interest rates than are currently available.

Dear Investor

Since the launch of Albion Development VCT ten years ago, the Company has had considerable success in generating attractive returns for Shareholders through investment in smaller unquoted UK companies. I am therefore delighted to be writing to you now as Chairman of Albion Development VCT PLC about our new D Share Offer.

The other Directors and I believe that the Offer has a number of clear benefits for potential investors, including the following:

TAX BENEFITS

Individual investors are entitled to a range of attractive tax benefits when investing in VCTs because of UK government incentives to help investment in small companies. These include upfront income tax relief of 30 per cent., tax-free dividends and tax-free capital gains on disposal, subject to conditions outlined on page 24 of this document. We believe that the combination of these tax benefits are particularly attractive at a time when recent legislation has diminished the attractions of pension investments for high earners and has increased the higher rate of income tax in the forthcoming tax year.

INVESTMENT OPPORTUNITIES

The current market conditions are providing interesting investment opportunities. The new funds raised will be invested in line with the Company's investment policy, that of achieving a diversified portfolio combining lower-risk often asset-backed investments, with a smaller number of higher-growth investments. In particular, we will be looking at the healthcare and environmental sectors which we believe offer strong longer-term growth prospects, as well as the potential for resilience during a downturn. In addition, the Company will continue to look at a broad range of undervalued businesses in a variety of sectors as well as consumer-defensive companies.

LOWER RISK

The Company aims to structure investments in such a way as to reduce the risks normally associated with investment in small companies. This is achieved by a large allocation to secured loan stock investments which are designed to provide a stable and predictable income stream as well as a high level of capital protection. Our portfolio companies generally have no external borrowings with a prior charge ranking ahead of the Company. Lastly, as part of a portfolio of seven VCTs, Albion Development VCT is able to co-invest alongside other funds where appropriate.

EARLY INVESTMENT OFFER

Successful subscribers for D Shares applying on or before 12 noon on 23 December 2009 will be entitled to receive 1 additional D Share for every 100 D Shares subscribed for under the Offer, reducing the overall

price per D Share to approximately 99 pence per Share. D Shares allotted under this first allotment are expected to be admitted to dealing within 10 business days of allotment. The cost of additional D Shares allotted in this way will be funded by the Manager out of its 5.5 per cent. fee under the Offer Agreement.

ALBION VENTURES – A LEADING VENTURE CAPITAL INVESTMENT MANAGER

We are pleased to have Albion Ventures as the Manager of Albion Development VCT. Albion Ventures' investment team has one of the longest and most successful track records in the UK VCT industry. Albion recently won "VCT of the Year" at the 2009 Investor All Stars Venture Capital Awards and the team has been nominated for "VCT Manager of the Year" at the 2009 British Private Equity Awards. A recent shareholder survey conducted by Albion Ventures highlighted high satisfaction levels with their investment performance. The team are committed to providing Shareholders with both continued dividend generation and capital growth over the longer term.

I look forward to welcoming you as a D Shareholder.

Yours sincerely

Geoffrey Vero

Chairman

PART I

TAX BENEFITS TO INVESTORS

VCTs have particularly strong tax benefits for private investors. In the current tax year VCTs offer the following income and capital gains tax advantages in respect of investments of up to £200,000 per person per tax year:

- Tax paying investors receive income tax relief at 30 per cent. on the amount invested under the Offer, irrespective of the investor's marginal rate of income tax. This reduces the effective net cost of the investment to 70 pence for each £1 invested, provided the D Shares are held for at least five years from investment. The relief is limited to an amount that reduces the investor's income tax liability for the year to nil;
- Dividends paid by a VCT are free of income tax;
- There is no tax on capital gains made upon the disposal of shares in a VCT;
- Capital gains made by a VCT on its underlying investments are free of corporation tax and, unlike an ordinary investment trust, these gains may be distributed by way of dividend to investors.

The example below demonstrates, for illustrative purposes only, the financial effects of the tax incentives available to a private investor in a VCT and the extent to which the return on both income and capital may be enhanced. The example shows the return from an investment in a VCT by a higher rate income tax payer, even if the D Shares show no capital growth on the Offer Price.

	The return for a higher rate income tax payer investing in the Company
Amount invested	£10,000
Effective holding cost after income tax relief	£7,000
Income Return	
Average annual dividend over 5 year period	£250
Annual return on effective holding cost	3.6%
<i>Equivalent annual return grossed up for an income tax payer at 50%</i>	7.1%
<i>Equivalent annual return grossed up for an income tax payer at 40%</i>	6.0%
Total return over five years (i.e. dividends paid plus the Net Asset Value of £10,000)	£11,250
Total annualised return from income and capital, free of tax	8%

Source: Albion Ventures

Underlying assumptions relating to the above table

- (i) The investor subscribes £10,000 under the Offer.
- (ii) The effective holding cost of investment is calculated after deducting income tax relief at 30 per cent.
- (iii) The investor receives an average annual net dividend of 2.5 pence per D Share over the first five years following investment. This does not assume any dividends paid from capital profits. By comparison the average dividend paid over the life of the Company to Ordinary and C Shareholders has been 4.6 and 5.2 pence per Share respectively.
- (iv) The investor disposes of his 10,000 D Shares after five years at a price of 100 pence per Share. Investors should note however that venture capital investments should be made for the longer-term and that parts of the portfolio, in particular those in the technology sector, are unlikely to mature within a five year time-scale.
- (v) The investor has a marginal rate of income tax of 40 or 50 per cent., as specified.

The Directors and Manager consider that the assumptions underlying the example set out above are fair and reasonable. Nevertheless, the example is provided for illustrative purposes only and should not be regarded as a forecast of dividends or profits. It should be noted that neither the dividends nor the capital return from an investment in the Company can be predicted with any certainty and that they may differ materially from the example shown.

TAX BENEFITS OF VCTS COMPARED TO PENSIONS

The combination of a VCT's tax benefits are particularly attractive at a time when recent legislation has diminished the attractions of pension investments for high earners, and promises to increase the higher rate of income tax.

From 2010, complex rules introduced in the 2009 Budget mean that high earners could receive as little as 20 per cent. income tax relief on additional pension contributions, and potentially as much as 50 per cent. tax on income at retirement, after their initial tax-free lump sum. This means that VCTs have perhaps now become the tax shelter of choice for many investors.

The worked example below shows that VCTs offer an attractive long-term tax shelter for high earners compared to pensions. Based on certain assumptions (see footnotes), a high earner would receive preferential initial income tax relief and long term income tax treatment, as well as no cap on total holdings for their VCT investments.

A comparative example of VCTs and Pensions		
	VCT	Pension
Gross Investment	£200,000	£200,000
Effective Net Investment	£140,000	£156,000
Effective Tax Relief	£60,000 ⁽¹⁾	£44,000 ⁽²⁾
Effective % Tax Relief	30%	22% ⁽³⁾
Income Tax	None on dividends None on capital	25 per cent. of fund at retirement can be taken as tax-free lump sum. Balance taxed as earned income
Capital Gains Tax	None on share disposal	n/a
Holding Period	5 Years	Hold until retirement ⁽⁴⁾
Maximum Annual Investment	£200,000	Lower of £245,000 or taxable income
Maximum Total Investment	None	£1,750,000

Source: Albion Ventures

This example shows the comparative tax treatment of an investor aged 50 earning £200,000 per annum wishing to make a gross investment of £200,000 in the 2009/10 tax year. It assumed that the investor has not paid pension contributions from the 2007/08 tax year onwards and that the Special Annual Allowance that will apply is £20,000. This should not be relied upon for tax advice. Please refer to your tax adviser for full information on the tax benefits and risks.

- (1) Reclaimed via self-assessment.
- (2) In this example, £40,000 (20 per cent. basic rate tax relief) re-invested into pension fund and £4,000 net reclaimed via self-assessment.
- (3) Complex pension rules introduced in April 2009 limit higher rate relief for individuals with total income over £150,000 p.a. These individuals will receive a tapered rate of relief between the higher rate (which is due to increase to 50 per cent. from April 2010) and 20 per cent. The exact nature of the taper is not yet known.
- (4) Earliest retirement age is 55 years from April 2010.

THE OFFER

The typical investors for whom the D Shares are designed are professionally-advised private investors (both sophisticated and retail) seeking, over the longer term, both a regular predictable source of income from an investment in a diversified portfolio of UK unquoted companies with the prospect of a capital gain.

The D Shares may also be suitable for investors who are financially sophisticated non-advised private investors who are capable of evaluating the risks and merits of an investment in the D Shares and who have sufficient resources to bear any loss which may result from an investment in the D Shares. Such investors may wish to consult an independent financial adviser before investing in the D Shares.

Benefits of the Offer

The Offer will provide benefits to existing Shareholders and to new D Shareholders.

For existing Shareholders, the Offer should result in an enlarged fund over which to spread the fixed costs of managing the Company, whilst at the same time enabling a broader investment portfolio to be built up.

For new D Shareholders, the Offer provides an opportunity to invest in an existing operational VCT and to participate in a carefully balanced and proven investment policy that is broadly similar to the majority of the other VCTs managed by the Manager, while benefiting from the substantial income tax benefits on investment that are available to UK taxpaying investors in the current tax year.

Amount to be raised under the Offer

The Company is seeking to raise £25 million (before expenses) through the Offer. The D Shares are offered at 100 pence each, payable in full upon application. The Directors reserve the right to increase the amount raised under the Offer up to £30 million.

The minimum subscription per investor under the Offer is £5,000 in respect of each of the tax years 2009/2010 and 2010/2011, and applications should be in multiples of £1,000. The maximum subscription will be limited to £200,000. The Offer is not conditional on any minimum amount being raised.

The Offer is conditional upon the Offer Agreement having become unconditional in all respects and not having been terminated in accordance with its terms.

The net proceeds of the Offer (of approximately £23,625,000 million, assuming the Offer is subscribed for in full) will initially be placed on deposit, and subsequently applied in accordance with the investment policy of the Company, as set out in this document.

The Ordinary Shares and the D Shares will rank *pari passu* for voting purposes, other than for class resolutions. Dividend payments, however, will be payable to each class of Shareholder out of the reserves attributable to the respective class.

The merger of the D Shares will be at the Directors' discretion. However, this is anticipated to occur approximately 5 years after the Final Closing of the Offer and will be on the basis of the respective Net Asset Value of each Share class at the year end preceding the merger.

Early Investment Offer

Successful subscribers for D Shares applying on or before 23 December 2009 will be entitled to receive 1 additional D Share for every 100 D Shares subscribed for under the Offer, reducing the overall price per D Share to approximately 99 pence per Share. D Shares allotted under this first allotment are expected to be admitted to dealing within 10 business days of allotment date. The cost of additional D Shares allotted in this way will be funded by the Manager out of the 5.5 per cent. costs under the Offer Agreement.

Application for D Shares

Investors are encouraged to submit an Application Form (at the back of this document), accompanied by the payment for the D Shares as soon as possible, and, in any event, to be received by the Manager by

no later than 12 noon on 5 April 2010, in respect of the 2009/2010 tax year or 12 noon 30 April 2010 in respect of the 2010/2011 tax year, to be confident that their application will be successful.

Subject to the maximum subscription of £200,000 per investor for each tax year, multiple subscriptions will be permitted.

It is expected that an announcement will be made on a Regulatory Information Service following each allotment stating the number of D Shares allotted and, following the closing of the Offer on 30 April 2010, stating the results of the Offer and the basis of allocation of D Shares in the event that the Offer is over subscribed. Deals in the D Shares allotted pursuant to the Offer will not be permitted prior to Admission.

Introductory commission

Introductory commission is being offered by the Manager to authorised financial intermediaries as either an initial one-off introductory commission of 3.0 per cent. or an initial introductory up-front commission of 2.5 per cent. plus additional commission payments of 0.25 per cent. per annum. The additional annual trail commission will be calculated by reference to the number of D Shares held on 31 December in each year, commencing on 31 December 2010 provided that the intermediary continues to act for the investor. The additional commission will cease to be payable if the appointment of Albion Ventures as Manager is terminated and will cease, in any event, from 31 December 2013.

The initial introductory commission may be waived at the option of the financial intermediary and used to satisfy an additional allotment of D Shares to the underlying investor at the Offer Price.

Total costs

The costs of the Offer (including introductory commission) are fixed at 5.5 per cent. of funds raised. Assuming the Offer is fully subscribed at £25 million, the total costs of the Offer will amount to £1,375,000. The costs of the Offer will be borne only by those investors subscribing for D Shares. The 5.5 per cent. fee will be paid to the Manager at the time of each allotment, and will be the maximum cost to the Company under the terms of the Offer. In the event that costs exceed this sum, the Manager will make up the shortfall.

INVESTMENT POLICY OF THE COMPANY

The Company's established investment policy is intended to provide investors with a regular and predictable source of dividend income combined with the prospect of long-term capital growth.

This is achieved through allowing investors the opportunity to participate in a balanced portfolio of lower-risk, often asset-backed investments that provide a strong income stream, combined with investment in a smaller number of higher-risk companies with greater growth prospects.

Lower-risk portfolio

Businesses will be selected which are lower-risk, often with freehold or long-leasehold property as their major asset, although other asset types may be considered. Many will be in property-intensive business in the leisure sector. The Company will also invest in stable and profitable businesses in other sectors such as business services and healthcare, some of which may also have asset-backing.

Growth portfolio

These investments will include a smaller number of higher-risk unquoted companies with greater growth prospects in sectors such as information and medical technology and services. Investments will be selected for their growth prospects and will be unlikely to have external borrowings. While many will be later stage, established businesses, some will be early stage and may, on occasion, have yet to earn any income.

Investment risk management

Investments are structured in such a way as to reduce the risks normally associated with investment in small companies. This is achieved by a large allocation to secured loan stock investments capable of providing a stable and predictable income stream and capital protection. The policy is for portfolio companies to have no external borrowings with a prior charge ranking ahead of the Company.

Up to two-thirds of the Company's Qualifying Holdings by cost will comprise loan stock secured with a first charge on the Investee Company's assets.

Funds held pending investment and for liquidity purposes will be held as cash on deposit, or in floating rate notes or similar instruments, with banks or financial institutions with a Moody's rating of A or above.

Further information regarding the application of the current investment policy is shown in the Track Record section on pages 17 and 18.

Venture Capital Trust status

When implementing its investment policy, the Company also has regard to the HMRC rules regarding investment allocation and risk diversification. In order to maintain status under Venture Capital Trust legislation, the tests set out in Part III must be met.

These tests require a spread of investment risk through disallowing holdings of more than 15 per cent. of the total HMRC defined value of the portfolio in any one Investee Company.

As at 28 September 2009, being the latest practical date prior to publication of this document, the Ordinary Shares were 80 per cent. invested in Qualifying Holdings for VCT purposes.

Qualifying Holdings for Albion Development VCT PLC include shares or securities (including loans with a five year or greater maturity period) in companies which operate a 'qualifying trade' wholly or mainly in the United Kingdom. 'Qualifying trade' excludes, amongst other sectors, dealing in property or shares and securities, insurance, banking, agriculture, and operating or managing hotels or residential care homes. The Company may not control an Investee Company.

For the Ordinary Share portfolio, the gross assets of an Investee Company must not exceed £15 million immediately prior to the investment and £16 million immediately thereafter and there is an annual investment limit of £1 million in each company.

For the D Share Portfolio, the following additional restrictions on investment will apply;

- an Investee Company's gross assets must not exceed £7 million immediately prior to the investment and £8 million immediately thereafter;
- new Investee Companies may only raise a maximum of £2 million in any 12 month period from funds sourced from VCTs, Enterprise Investment Schemes or Corporate Venturing Schemes which raised funds subsequent to 5 April 2007; and
- Investee Companies must have fewer than the equivalent of 50 full-time employees at the time of investment.

Those investments which are permitted for both classes of Share will be allocated between them in the ratio of funds available for investment.

The Manager estimates that, of the investments it has made over the past three years and which qualified under the VCT rules in place under the previous legislation, approximately 70 per cent. by value would qualify under the new legislation.

In accordance with the Listing Rules, any material change in the Company's investment policy will only be made if approved by an ordinary resolution of Shareholders in a general meeting.

Under the Articles of Association, the Company's borrowing powers are limited to 10 per cent. of the Company's audited adjusted share capital and reserves. As at 31 December 2008, and until the publication of the audited accounts for the year ending 31 December 2009, the Company's maximum potential borrowing is £2,534,000. At the date of this document, it had no actual short term or long term borrowing. The Directors do not currently have any intention to utilise long term borrowing.

While the Company may enter into derivative transactions for efficient portfolio management purposes in respect of up to a maximum of 10 per cent. of its gross assets, the Company has no current intention of doing so and will not enter into derivative transactions for speculative purposes.

DIVIDEND AND BUY BACK POLICY

It is the Company's policy to create a strong and predictable dividend stream by supplementing dividends derived from investment income with distributions from realised capital profits. Dividends in respect of Ordinary Shares and D Shares will be paid out of the reserves generated by each respective class.

To date, dividends of 49.8 pence and 35.7 pence per Share have been paid out to Ordinary and C Shareholders respectively representing averages of 4.6 and 5.2 pence per Share per annum respectively. Initially, for the D Shares, dividends will be generated solely from revenue profits generated by the D Share portfolio. It is intended that, once fully invested and assuming the Offer is subscribed for in full, the Company will generate revenue dividends of in the region of 2 to 3 pence per D Share per annum. However, this should not be regarded as a forecast of dividends or profits. In due course, dividends from revenue profits may be supplemented by dividends from capital profits.

Costs for the Company will be allocated according to the ratio of Net Asset Value per Share for each class of Share.

Following the merger of the Ordinary Shares and D Shares, dividends will be paid out of the combined distributable reserves of the Company.

The Company operates a Dividend Reinvestment Scheme in respect of the Ordinary Shares, under which Shareholders may reinvest their dividends in new Shares, which entitles them to further income tax relief on the amount of their dividend. The Directors intend to introduce a Dividend Reinvestment Scheme in respect of D Shares in due course.

The Company offers a buy-back policy for Ordinary Shares and will do the same for D Shares. Whilst the discount to Net Asset Value at which Ordinary Shares have recently been bought back by the Company has widened as a result of recent market volatility, it is the Directors' intention that this discount should be brought back to around 10 per cent. over the long term.

Prospects

The split of Ordinary Share portfolio valuation by sector as at 30 June 2009 was as follows;

Source: Albion Ventures

Due to the diversified nature of its portfolio of investments, and supported by the fact that, as a policy, Investee Companies should not normally have external borrowings, the Company has performed relatively robustly against a harsh economic background. Therefore the portfolio as a whole remains stable, despite a cautious view being taken by the Board of Investee Company valuations.

The key tasks for the Company are threefold: first to ensure that those investee companies that are not yet in profit, are positioned to achieve profitability; second, that the investment portfolio is capable of generating a satisfactory level of income for the Company; and third, to take advantage of the interesting investment opportunities at attractive values that the Directors believe are now available in the market.

Good progress has been made in the first area during the period to 30 June 2009, and in the second, the Company is continuing to focus on generating income from loan stock investments. For the third, the Manager continues to receive and review a strong flow of interest from companies seeking investment, with a particular emphasis on opportunities in the healthcare and environmental sectors, which are seen as an important source of future growth. At the same time, the Company is also taking advantage of value opportunities in other sectors as they arise.

The Directors believe that the potential investment opportunities in the sectors in which the Company invests will, in the current and in the next financial year, further build a base for the Company's stated strategy of providing investors with a regular and predictable source of income combined with the prospect of longer term capital growth.

Management fees

Under the Management Agreement and the Supplemental Management Agreement, the Manager is paid an annual fee equal to 2.25 per cent. of the Net Asset Value of the Ordinary and the D Shares, payable quarterly in arrears.

Out of the management fee, the Manager will pay trail commission equivalent to 0.25 per cent. of the subscription value, to those authorised financial intermediaries who have elected for a trail commission payment and whose clients continue to hold D Shares at each trail commission payment date. The additional commission will commence on 31 December 2010 and end on 31 December 2013. The additional commission will cease to be payable if the appointment of the Manager is terminated.

The Manager will, in addition, be entitled to an annual incentive fee in the event that returns exceed minimum target levels per Ordinary and D Share. These minimum target levels, comprising the aggregate of dividends and Net Asset Value growth, will be equivalent to an annualised rate of return of 6.5 pence per share per annum. The incentive fee will comprise 20 per cent. of the excess return achieved by the Company over the target returns for each financial period. The starting point for the target return for Ordinary Shares was 98.7 pence per share as at 1 January 2007, and for the D Shares, will be the Offer Price.

Further details of the Management Agreement and the Supplemental Management Agreement are given in paragraphs 6.2 and 6.3 of Part V of this document.

PART II

TAXATION CONSIDERATIONS FOR INVESTORS

Prospective investors should note that the summary below sets out the relevant provisions of current UK taxation legislation.

The following paragraphs are intended as a general guide only and are based on current legislation and HM Revenue & Customs practice, which is subject to change. If you are in any doubt as to your tax position or you are subject to tax in a jurisdiction outside the UK, you should consult an appropriate professional adviser without delay.

1. Approval

To obtain VCT status a company must be approved by HMRC as a VCT. HMRC has granted the Company approval as a VCT and has confirmed that the proposed issue of D shares does not prejudice that approval.

2. Tax reliefs for individual investors resident in the UK

Individuals must be aged 18 or over to qualify for VCT tax reliefs.

Relief from income tax

An investor subscribing up to £200,000 in the current tax year for shares in a VCT will be entitled to claim income tax relief on the investment, in the year in which the investment is made, at the rate of 30 per cent. (regardless of the rate at which the investor pays income tax for that year) although this relief would be withdrawn in whole or in part should the shares be sold within five years. Relief is given by way of a deduction from the investor's income tax liability and is restricted to the amount which reduces that liability to nil. The subscription must be made in the investor's own name and not through a nominee, although the shares may subsequently be transferred into the name of a nominee.

An investor who subscribes for or acquires shares in a VCT will not be liable for UK income tax on dividends paid by the VCT in respect of investments up to a maximum of £200,000 in the current tax year.

Relief from capital gains tax

An investor who disposes of shares in a VCT will be exempt from tax on gains arising on their disposal while any loss will not be an allowable capital loss. This treatment applies to shares however acquired, up to the permitted maximum of £200,000 in the current tax year.

Loss of tax reliefs

- (i) If a company loses approval as a VCT, tax reliefs previously claimed will be withdrawn and the company will be treated as if it was never entitled to the exemption from capital gains tax and will therefore be liable to corporation tax on all chargeable gains it has realised.
- (ii) For investors, the withdrawal of formal approval as a VCT may (depending upon the timing of such withdrawal) result in:
 - clawback of the 30 per cent. tax relief on subscription on D shares;
 - income tax becoming payable on payments of dividends by the company; and
 - a liability to tax on capital gains being suffered in the normal way on the disposal of shares in the company, except that any part of the gain attributable to the period for which the VCT was approved would be exempt.

3. Investors who are not resident in the UK

Non-resident investors should seek their own professional advice as to the consequences of making an investment in the Company as they may be subject to tax in another jurisdiction.

4. Stamp duty and stamp duty reserve tax

No stamp duty or, unless the D Shares are issued to a nominee for a clearing system or a provider of depository receipts, stamp duty reserve tax ("SDRT") will be payable on the issue of the D Shares.

Except in relation to depository receipt arrangements or clearance services, where special rules apply, under current UK legislation relating to stamp duty and SDRT, the transfer or conveyance on the sale of shares will generally be subject to stamp duty on the instrument of transfer, normally at the rate of 0.5 per cent. of the amount of the (VAT inclusive) consideration (with duty rounded up to the nearest £5).

PART III

Annex III
Rule: 4.11

VENTURE CAPITAL TRUST STATUS

Albion Development VCT has currently been granted approval as a venture capital trust under Part 6 ITA.

To continue to hold this approval, the conditions summarised below have to be satisfied in relation to the accounting period of the VCT which is current when the application for approval is made, or in any event must be satisfied by no later than the beginning of the VCT's next accounting period:

- the VCT's income must have been derived wholly or mainly from shares or securities;
- no holding in a company by the VCT may represent more than 15 per cent. by value of the VCT's investments;
- eligible (non-preferential ordinary) shares must comprise at least 10 per cent. of the HMRC value of investment in any one company;
- the VCT must not have retained more than 15 per cent. of the gross income derived from shares or securities; and
- the ordinary share capital of the VCT must be quoted on the Official List.

The above conditions must continue to be satisfied throughout the life of the VCT.

The following conditions also have to be satisfied by no later than the beginning of the VCT's accounting period which commences no more than three years after provisional approval takes effect or, in the case of funds raised by a further share issue, by the beginning of the accounting period which commences no more than three years after the further issue of shares:

Annex XV
Rule: 2.1

- at least 70 per cent. by value of its investments is represented by shares or securities comprising Qualifying Investments for VCT purposes;
- at least 30 per cent. by value of its Qualifying Investments is represented by holdings of ordinary shares which carry no preferential rights to dividends or assets in a winding up and no present or future rights to be redeemed; and
- for funds raised after 5 April 2010 at least 70 per cent. by value of Qualifying Investments must be in 'equity'. Legislation defining 'equity' is due to be introduced in the Finance Bill 2010.

Qualifying Investments comprise shares or securities (including loans with a five year or greater maturity period) issued by unquoted trading companies which exist wholly or mainly for the purpose of carrying on one or more qualifying trades wholly or mainly in the United Kingdom. The definition of a qualifying trade excludes dealing in property, shares, securities, commodities or futures. It also excludes banking, insurance, receiving certain royalties or licence fees, leasing, the provision of legal and accounting services, property development, farming and market gardening, woodland and forestry activities, operating or managing hotels and operating or managing nursing homes or residential care homes, shipbuilding, coal production and steel production.

For the Ordinary Share portfolio, the gross assets of an Investee Company must not exceed £15 million immediately prior to the investment and £16 million immediately thereafter and there is an annual investment limit of £1 million in each company.

For the D Share Portfolio, the following additional restrictions on investment will apply:

- an Investee Company's gross assets must not exceed £7 million immediately prior to the investment and £8 million immediately thereafter;
- new Investee Companies may only raise a maximum of £2 million in any 12 month period from funds sourced from VCTs, Enterprise Investment Schemes or Corporate Venturing Schemes, which raised funds subsequent to 5 April 2007; and
- Investee Companies must have fewer than the equivalent of 50 full-time employees at the time of investment.

A Qualifying Investment can also be made in a company which is the parent company of a trading group where the activities of the group, taken as a whole, consist of carrying on one or more qualifying trades, one of which is carried on wholly or mainly in the United Kingdom.

Companies whose securities are quoted on AIM are treated as unquoted companies for the purposes of calculating Qualifying Investments. Shares in an unquoted company which subsequently become quoted may still be regarded as a Qualifying Investment for a further five years following quotation.

VCTs are exempt from corporation tax on chargeable gains. There is no restriction on the distribution of realised capital gains by a VCT, subject to the requirements of company law. A VCT will be subject to corporation tax on its income (excluding dividends received from UK companies) after deduction of attributable expenses.

In the event of any breach of the HMRC investment restrictions stated above and in the Investment Policy section, Shareholders will be informed of the actions to be taken by the Manager by an announcement issued through a Regulatory Information Service or a notice sent to Shareholders at their registered addresses in accordance with the Company's Articles of Association.

10. Financial impact of fundraising

On the assumption that successful applications for 25,000,000 D Shares are received, the Company would raise a total of £23,625,000 after costs. Initially this sum would be invested in cash deposits and liquid securities, pending investment in accordance with the Company's investment strategy. This would have the effect of adding £23,625,000 to the Net Asset Value of the Company, and the Net Asset Value per D Share would be 94.5 pence per Share.

- (c) The Directors may in their absolute discretion from time to time decide the manner in which the D Shares are to be converted, subject to the provisions of these Articles and the Statutes, to the intent that on Conversion each D Share shall convert into a New Ordinary Share.
- (d) Without prejudice to (c) above, Directors may, where the Conversion Ratio is greater than 1, in order to facilitate the Conversion, provide for the profits or reserves attributable to the D Shares to be capitalised and applied in paying up in full such number of New Ordinary Shares as shall be calculated by multiplying the number of New Ordinary Shares arising on Conversion by the Conversion Ratio and then deducting the number of New Ordinary Shares arising on Conversion, and allot such shares, credited as fully paid up, to the holders of D Shares pro rata to their holdings.

The transferor is deemed to remain the holder of the shares concerned until the name of the transferee is entered in the register of members in respect of those Shares. The instrument of transfer of a share shall be executed by or on behalf of the transferor and, in the case of a partly paid share, by or on behalf of the transferee. The Directors may refuse to register any transfer of a partly paid certificated share, provided that such refusal does not prevent dealing taking place on an open and proper basis, and may also refuse to register any instrument of transfer unless:

Annex III
Rule: 4.8

- (i) it is duly stamped (if so required), is lodged with the Company's registrars or at such other place as the Directors may appoint and is accompanied by the certificate for the shares to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer;

and a demand for a poll by a person as proxy for a member shall be as valid as if the demand were made by the member himself.

3.10.3 *Proxies*

A proxy need not be a member of the Company and a member may appoint more than one proxy in relation to a meeting to attend and to speak and to vote on the same occasion provided that each proxy is appointed to exercise the rights attached to a different share or shares held by a member. 3.11.3 *Remuneration of Directors*

- (i) The ordinary remuneration of the Directors (other than an executive director appointed under the Articles of Association) shall be such amount as the Directors shall from time to time determine (provided that unless otherwise approved by the Company in general meeting the aggregate ordinary remuneration of such Directors, including fees, shall not exceed £100,000 per year) to be divided among them in such proportion and manner as the Directors may determine. The Directors shall also be paid by the Company all travelling, hotel and other expenses they may incur in attending meetings of the Directors or general meetings or otherwise in connection with the discharge of their duties.

A Director shall not vote at a meeting of the Directors in respect of a matter in which he has any material interest otherwise than by virtue of his interest in shares, debentures or other securities of, or otherwise in or through, the Company unless his interest arises only because the case falls within one or more of the following paragraphs:

Rule: 1.3

Notwithstanding any other provision of this document, the Company reserves the right to allot and issue any D Shares in certificated form. In normal circumstances, this right is only likely to be exercised in the event of any interruption, failure or breakdown of CREST (or of any part of CREST), or on the part of the facilities and systems operated by the Registrars in connection with CREST. This right may also be exercised if the correct details (such as Participant ID and Member Account ID details) are not provided as requested on the Application Form.

5. Offer Agreement

5.1 Under the Offer Agreement the Sponsor has undertaken as agent of the Company to assist in procuring subscribers under the Offer for up to 25,000,000 D Shares to raise a maximum of £25,000,000 before expenses. The fee arrangements under the Offer Agreement are as follows:

The Company shall pay to Albion Ventures an amount equal to 5.5 per cent. of the amount subscribed for D Shares. Out of this amount, Albion Ventures shall pay (together with VAT where applicable);

- (i) the Sponsor's fees of £30,000;
- (ii) commissions to UK intermediaries (being authorised persons under the FSMA and which may include Brewin Dolphin) introducing subscriptions for D Shares, at a rate of either 3 per cent. or 2.5 per cent. with trail commission of 0.25 per cent. for the following four years, of the subscriptions accepted (provided that all relevant applications bear the stamp of the recognised intermediary and that the intermediary continues to act for the investor). This includes any costs associated with introductory commissions reinvested in D Shares. For the avoidance of doubt, the trail commission of 0.25 per cent. for a period of up to four years referred to in the prospectus shall be paid by the Manager separately and shall not be paid out in the amount of 5.5 per cent. referred to above;
- (iii) all out of pocket expenses properly incurred by the Sponsor in connection with its obligations hereunder; and
- (iv) all the other costs and expenses of the Offer including (without limitation) the fees and expenses of professional advisers, the cost of printing the Offer documents, share certificates and letters of acceptance, rejection and regret; the fees of the Registrars and the fees of the UK Listing Authority and the London Stock Exchange, and Albion Ventures will reimburse the Company or Brewin Dolphin the amount of any such expenses which the Company or Brewin Dolphin (as the case may be) may have paid. The Company may withhold any such amounts from any payment otherwise due to Albion Ventures pursuant to the Offer Agreement;

The total costs payable by the Company, therefore, will be limited to 5.5 per cent. of the gross proceeds of the Offer.

5.2 If the obligations of Brewin Dolphin fail to become or be declared unconditional or are terminated, the Manager shall pay Brewin Dolphin a fee of £10,000 plus all out of pocket expenses and legal costs properly incurred by Brewin Dolphin (plus VAT if applicable) in connection with its obligations hereunder. Such amounts shall be paid within seven days of the delivery of Brewin Dolphin's invoice in respect of such fees or expenses.

5.3 In the event that the fee payable to Albion Ventures of 5.5 per cent. of the amount subscribed for D Shares is insufficient to pay the costs set out in the Offer Agreement, Albion Ventures has undertaken to pay any shortfall promptly on production to it of evidence of the amounts being due and payable.

6. Material contracts

Annex I
Rule: 22

The following section contains summaries of each material contract (not being a contract entered into in the ordinary course of business) entered into by the Company within the two years immediately preceding the date of this document or which are expected to be entered into prior to Admission and which are, or may be, material or which have been entered into at any time by the Company and which contains any provision under which the Company has any obligation or entitlement which is, or may be, material to the Company at the date of this document:

Annex XV
Rule: 3.1

- 6.1 The Offer Agreement as described in paragraph 5 above.
- 6.2 The Management Agreement (as amended by the Supplemental Management Agreement) (further details of the fees payable under which are detailed on page 23 under "Management Fees") is terminable by either party by one year's prior written notice, subject to earlier termination by either party in the event of, inter alia, a party having a receiver, administrator or liquidator appointed or committing a material breach of the Management Agreement or by the Company if it fails to become or ceases to be a venture capital trust for tax purposes or if the Manager shall cease to be lawfully able to carry out its obligations under the Management Agreement.

If terminated by the Company without due cause or on less than the requisite notice, the Manager shall be entitled to receive an amount representing the fees which would have been payable during the period for which notice shall not have been given, calculated by reference to the previous quarterly payments. The Management Agreement will terminate automatically without compensation, upon the passing of a resolution for the voluntary liquidation, reconstruction or reorganisation of the Company mentioned in paragraph 3.14 above under "Duration of the Company".

The Management Agreement contains provisions indemnifying the Manager against any liability not due to its default, negligence, fraud, breach of FSMA or the rules of the FSA.

In line with common practice in the VCT sector, the Manager is entitled to an arrangement fee, payable by each Investee Company, of approximately 2 per cent. on each investment made and is entitled to any non-executive director fees in respect of the Manager's representation on the boards of Investee Companies.

For the purposes of calculating the fee paid to the Manager, the values of the investments are calculated in accordance with the Company's normal accounting policies, with any disputes being referred to the Company's auditors.

The annual management fees will be charged 75 per cent. against capital reserves for accounting purposes, with the balance and all other expenses being charged against revenue. Any performance fees payable to the Manager will be allocated between capital and revenue reserves on a basis to be determined by the Board.

- 6.3 The Supplemental Management Agreement pursuant to which the Manager will, subject to Admission, provide or procure the provision of certain investment management services to the Company in respect of the D Shares, on the same terms as for the Ordinary Shares under the Management Agreement, apart from the incentive fee which will be based on a Total Return of 6.5 pence per annum on the Offer Price and payable with effect from 6 April 2010.
- 6.4 The Co-investment Agreement relating to the allocation of investment opportunities as described in paragraph 7 under "Conflicts of Interest" below.
- 6.5 The Custodian Agreement pursuant to which the Custodian is responsible for the safekeeping of the Company's securities with such securities and certain cash balances being held in client accounts maintained by the Custodian. In performing its duties the Custodian may, with the prior consent of the Company, appoint agents, sub-custodians and delegates as may be necessary for the performance in whole or in part of the Custodian's duties, provided that the Custodian will remain responsible to the Company for any acts or omissions of any such person. Under the Custodian Agreement, the Custodian has assumed responsibility for any loss occasioned by reason of the negligence, reckless disregard or wrongful misconduct of the Custodian's directors, employees, officers or agents.

Annex XV
Rule: 5.1

7. Conflicts of interest

Annex I
Rule: 14.2

Investment opportunities received by the Manager are allocated between the VCTs that it manages in accordance with the relevant VCT's specific investment policy.

Annex XV
Rule: 3.5

Under the Co-Investment Agreement where a potential investment satisfies the investment criteria of more than one VCT, it is allocated between the VCTs in the ratio of the funds available for investment. The formula is subject to variation in certain circumstances, for instance in the event of any individual fund being in danger of failing its VCT tests, or in respect of those funds which are both more than 12 months into their investment period and which are less than 75 per cent. invested, are given an additional 50 per cent. weighting. In addition, there are certain exclusions, for instance in the case of rescues or if a fund might otherwise be in breach of VCT regulations.

8. Notification of shareholdings

The provisions of rule 5 of the Disclosure and Transparency Rules (“DTRs”) will apply to the Company and its shareholders. DTR 5 sets out the notification requirements for shareholders and the Company where the voting rights of a shareholder exceed, reach or fall below the threshold of 3 per cent. and each 1 per cent. thereafter up to 100 per cent. DTR 5 provides that disclosure by a shareholder to the Company must be made within two trading days of the event giving rise to the notification and by the Company to a Regulatory New Services by no later than the end of the trading day following such notification.

10. Corporate governance

Annex I
Rule: 14.1, 16.3,
16.4

The Board consists solely of non-executive Directors. The Board has arrangements which it considers appropriate for a VCT to ensure proper corporate governance and to enable the Company to comply with the recommendations of the Combined Code, and with the Association of Investment Companies Code of Corporate Governance except as disclosed below.

Since all Directors are non-executive, and day-to-day management responsibilities are sub-contracted to the Manager, the Company does not have a Chief Executive Officer.

Geoffrey Vero is the Chairman of the Company. He is also a non-executive Director of Crown Place VCT, a venture capital trust managed by Albion Ventures LLP.

Jonathan Thornton is a non-executive Director of Albion Venture Capital Trust PLC, a venture capital trust managed by Albion Ventures LLP, and is a member of Albion Ventures LLP Investment Committee.

David Pinckney and Andrew Phillipps are considered independent Directors.

Under the Listing Rules, with effect from October 2010 the Company will be required to have an independent Chairman and a majority of independent Directors where, to be independent, a Director cannot serve on the Board of more than one Company managed by the Manager. The Board is keeping this under review and will report on this in future periods.

David Pinckney and Jonathan Thornton have been Directors of the Company for more than nine years. It is the Company's policy that Directors who have served for more than nine years are subject to annual re-election.

Annex I
Rule: 16.1, 16.3

The Board does not consider it necessary, in light of the size and composition of the Board, including the fact that all Directors are non-executive, for a senior independent Director to be appointed. The Board does not have a separate remuneration committee as all of the matters recommended by the 2006 Combined Code to be delegated to a remuneration committee will be considered by the Board as a whole.

The Board has established a separate Audit Committee chaired by David Pinckney.

Written terms of reference have been constituted for the Audit Committee, which are as follows:

- providing an overview of the Company's accounting policies and financial reporting;
- considering and reviewing the effectiveness of the Company's internal controls and risk management systems;
- monitoring the integrity of the financial statements of the Company and any formal announcements relating to the Company's financial performance and reviewing significant financial reporting judgements contained in them;
- meeting the Company's external auditors annually, approving their appointment, reappointment, remuneration, terms of engagement and providing an ongoing review of auditor independence and objectivity;
- developing and implementing a policy for the supply of non-audit services by the external auditors;
- meeting the internal auditors of Albion Ventures when appropriate;
- ensuring all Directors of the Company, and staff of companies who provide services to the Company feel able to raise issues of serious concern with the chairman of the audit committee, and that such issues, where raised, are subject to proportionate and independent investigation, and appropriate action;
- reporting to the Board, identifying any matters in respect of which action or improvement is needed, and recommending appropriate steps to be taken; and
- undertaking the duties of the management engagement committee, and therefore reviewing all matters arising under the Management Agreement.

With the exception of the matters concerning the independence of the Board, the Senior Independent Director and the Remuneration Committee, as described above, the Directors consider that the Company has and continues to comply with the relevant provisions set out in Section 1 of the Combined Code and the Association of Investment Companies Code of Corporate Governance.

11. Director's remuneration and service agreements

Annex I
Rule: 15.1, 15.2,
16.2, 11.3

- 11.1 The aggregate remuneration of the Directors for the financial year ended 31 December 2008 was £80,596. The aggregate remuneration of the Directors in respect of the current financial year (under the arrangements in force at the date of this document) is expected to be the same as the previous financial year.
- 11.2 The Directors each receive £20,149 per annum (exclusive of employer's NIC or VAT, if any).
- 11.3 None of the Directors has a service contract with the Company and no such contract is proposed. Each of the Directors has been appointed on terms which can be terminated by either party on three months' notice.
- 11.4 The Directors are not entitled to compensation on termination of their directorships.
- 11.5 The Company has taken out Directors' and Officers' liability insurance for the benefit of the Directors.
- 11.6 The Company does not confer any share options, long term incentives or retirement benefits to any Director, nor does it make a contribution to any pension scheme on behalf of the Directors.

12. General

- 12.1 The principal place of business and the registered office of the Company is 1 King's Arms Yard, London EC2R 7AF (telephone: 020 7601 1850).
- 12.2 The Company does not have, nor has it had since incorporation, any employees. The Company does not have any subsidiaries.
- 12.3 The Sponsor is or may be a promoter of the Company and will be entitled to receive a fee from the Manager in connection with the Offer, as stated in paragraph 5 above, and may also be entitled to receive commission in its capacity as a recognised intermediary. The Manager may be a promoter of the Company and will receive management fees and other payments from the Company under the Offer Agreement and Management Agreement (as amended by the Supplemental Management Agreement described in paragraphs 5 and 6 above).
- 12.4 Save as disclosed in this paragraph and in paragraphs 5 and 6 above, no amount or benefit has been paid or given to any promoters and none is intended to be paid or given.
- 12.5 Other than the Offer Agreement and the Supplemental Management Agreement there have been no related party transactions relating to the Company.
- 12.6 The Company has not, in the twelve months preceding the date of this document, been engaged in any governmental, legal or arbitration proceedings which may have or have had a significant effect on the Company's financial position or profitability and no governmental, legal or arbitration proceedings are known to the Company to be pending or threatened against the Company.
- 12.7 There has been no significant change in the financial or trading position of the Company since 21 September 2009, being the latest date to which the Company's latest approximate unaudited net asset value has been prepared and published.
- 12.8 The effect of the Offer (on the assumption that 25,000,000 of the Shares available under the Offer are subscribed for and that all of the net proceeds are invested in accordance with the Company's investment policy immediately following the conclusion of the Offer) is to increase the net assets of the Company from £23.6 million at 30 June 2009 to £47.2 million and the issued share capital from 32,713,157 Ordinary Shares to 32,713,157 Ordinary Shares and 25,000,000 D Shares. Had the transaction occurred on 30 June 2009, the net proceeds would have been invested in line with the Company's existing investment policy. As a result there would have been no adverse impact on the Company's earnings on a per Share basis. Any impact on the Company's earnings would have been as a result of a reduction in the fixed running costs of the Company relative to its net assets as a result of the larger size of the Company following completion of the Offer. It is expected that such fixed running costs will fall from approximately 0.9 per cent. to approximately 0.5 per cent. of Net Asset Value (on the basis that 25,000,000 D Shares are subscribed for under the terms of the Offer).
- 12.9 The Offer is sponsored by Brewin Dolphin Limited, which is authorised and regulated by the FSA. The principal place of business of the Sponsor is 12 Smithfield Street, London EC1A 9BD.
- 12.10 Brewin Dolphin Limited has given and not withdrawn its written consent to the issue of this document with the inclusion herein of its name and the references to it in the form and context in which they appear.
- 12.11 Following the Offer the issued share capital of the Company will be fully paid as to its nominal value. The initial issue price of 100 pence per D Share represents a premium of 50 pence over the nominal value of such D Shares and is payable in full on application.

PART VI

TERMS AND CONDITIONS

- (a) The contract created by the acceptance of applications under the Offer will be conditional upon the Offer Agreement becoming unconditional (save for the condition relating to Admission) and not being terminated in accordance with its terms.
- (b) The right is reserved by the Company to present all cheques and bankers' drafts for payment on receipt and to retain surplus application monies pending clearance of successful applicants' cheques. The Company also reserves the right to reject, in whole or in part, any application. If any application is not accepted in full or if any contract created by acceptance does not become unconditional, the application monies or, as the case may be, the balance thereof will be returned by crossed cheque in favour of the applicant, through the post at the risk of the person entitled thereto.
- (c) The right is reserved by the Company to allot D Shares, for which valid applications under the Offer have been received, at any time up to the closing of the Offer.
- (d) By completing and delivering an Application Form you:
- (i) offer to subscribe for the number of D Shares specified in your Application Form (or such lesser number for which your application is accepted) at the Offer Price per D Share on the terms of and subject to this document, including these terms and conditions, and the Memorandum and Articles of Association of the Company;
 - (ii) agree that, in consideration of the Company agreeing that it will not issue or allot any D Shares which are subject to the Offer to any person other than by means of the procedures referred to in this document, your application shall not be revoked until after 30 April 2010, and this paragraph shall constitute a collateral contract between you and the Company which will become binding upon despatch by post to, or (in the case of delivery by hand) on receipt by, the Receiving Agents of your Application Form;
 - (iii) warrant that your remittance will be honoured on first presentation and agree that if it is not honoured you will not be entitled to receive a share certificate or have your CREST account credited in respect of the D Shares applied for unless and until you make payment in cleared funds for such D Shares and such payment is accepted by the Company in its absolute discretion (which acceptance may be on the basis that you indemnify it against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and you agree that, at any time prior to the unconditional acceptance by the Company, it may (without prejudice to other rights) avoid the agreement to allot such D Shares and may allot such D Shares to some other person, in which case you will not be entitled to any payment in respect of such D Shares;
 - (iv) agree that if, following the issue of all or any D Shares applied for pursuant to the Offer (the "Issued Shares"), your remittance is not honoured on first presentation, the Issued Shares shall, forthwith upon payment by Albion Ventures of the Offer Price of the Issued Shares to the Company, be transferred to Albion Ventures at the Offer Price per Issued Share and any partner of Albion Ventures or any director of the Sponsor is hereby irrevocably appointed and instructed to complete and execute all or any form(s) of transfer and/or any other documents in relation to the transfer of Issued Shares to Albion Ventures or such other person as Albion Ventures may direct and to do all such other acts and things as may be necessary or expedient for the purpose of, or in connection with, transferring title to the Issued Shares to Albion Ventures, or such other person, in which case you will not be entitled to any payment in respect of such D Shares;
 - (v) agree that, in respect of those D Shares for which your application has been received and is not rejected, acceptance of your application shall be constituted, at the election of the Company either (i) by notification to the UK Listing Authority of the basis of allocation (in which case acceptance shall be on that basis) or (ii) by notification of acceptance thereof to the Receiving Agents;
 - (vi) agree that any monies returnable to you may be retained by the Receiving Agents pending clearance of your remittance and the completion of any verification of identity required by the

Annex III

- Money Laundering Regulations 2007 (the “Regulations”) and that such monies will not bear interest;
- (vii) subject as provided in paragraphs (iii), (iv) and (v) above, authorise the Receiving Agents to send a share certificate or arrange for your CREST account to be credited in respect of the number of D Shares for which your application is accepted and/or to send a crossed cheque for any monies returnable, by post, at the risk of the person entitled thereto, to the address of the person named as the applicant in the Application Form;
 - (viii) warrant that if you sign the Application Form on behalf of somebody else you have due authority to do so on behalf of that other person and such person will also be bound accordingly and will be deemed also to have given the confirmations, warranties and undertakings contained herein and undertake to enclose your power of attorney or a copy thereof duly certified by a solicitor with the Application Form;
 - (ix) agree that all applications, acceptances of applications and contracts resulting therefrom under the Offer shall be governed by and construed in accordance with English law, and that you submit to the jurisdiction of the English Courts and agree that nothing shall limit the right of the Company to bring any action, suit or proceedings arising out of or in connection with any such applications, acceptances of applications and contracts in any other manner permitted by law or in any court of competent jurisdiction;
 - (x) confirm that in making such application you are not relying on any information or representation in relation to the Company other than the information contained in this document and accordingly you agree that no person responsible solely or jointly for this document or any part thereof or involved in the preparation thereof shall have any liability for any such other information or representation;
 - (xi) authorise the Receiving Agents, or any persons authorised by them, as your agent, to do all things necessary to effect registration of any D Shares subscribed by you into your name or into the name of any person in whose favour the entitlement to any such D Shares has been transferred and authorise any representative of Albion Ventures to execute any document required therefor;
 - (xii) agree that, having had the opportunity to read this document, you shall be deemed to have had notice of all information and representations concerning the Company contained therein;
 - (xiii) confirm and warrant that you have read and complied with paragraph (e) below;

 - (xvii) agree that future dividend payments in respect of D Shares subscribed for will be paid direct into your bank or building society account.
- (e) It is a term of the Offer that, to ensure compliance with the Regulations, Albion Ventures may at its absolute discretion require verification of identity from any person lodging an Application Form (the “Applicant”) and, without prejudice to the generality of the foregoing, in particular any person who either (i) tenders payment by way of a Building Society cheque or bankers’ draft drawn on an account in the name of a person or persons other than the Applicant, (ii) appears to be acting on behalf of some other person or (iii) who subscribe for in excess of the sterling equivalent of €15,000 (under the Money Laundering Regulations 2007). In these cases, verification of the identity of the Applicant or of any person on whose behalf the Applicant appears to be acting, may be required. In addition, Albion Ventures may use the services of a credit reference agency which will record that an enquiry has been made.

If, within a reasonable period of time following a request for verification of identity and in any case by no later than 3.00 p.m. on the relevant date of allotment, Albion Ventures has not received evidence satisfactory to it as aforesaid, the Company with the agreement of Albion Ventures, at its absolute discretion, may reject any such application in which event the remittance submitted in respect of that application will be returned to the Applicant (without prejudice to the rights of the Company to

undertake proceedings to recover any loss suffered by it as a result of the failure to produce satisfactory evidence of identity).

Where possible Applicants should make payment by their own cheque. If a bankers' draft or building society cheque is used, the Applicant should:

- (i) write his/her name and address on the back of the draft or cheque and, in the case of an individual, record his/her date of birth against his/her name; and
- (ii) ask the bank or building society (if relevant) to endorse on the reverse of the draft or cheque the full name and account number of the person whose account is being debited and stamp such endorsement.

The above information is provided by way of guidance to reduce the likelihood of difficulties, delays and potential rejection of an Application Form but, without limit, Albion Ventures' right to require verification of identity is indicated above.

The completion by an authorised financial intermediary of the agent's box on the application form confirms that the requirements of the Regulations for the identification and verification of the Applicant have been complied with by the intermediary.

- (f) No person receiving a copy of this document or an Application Form in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application hereunder to satisfy himself or herself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.
- (g) The D Shares have not been and will not be registered under the United States Securities Act 1933 (as amended) and, subject to certain exceptions, the D Shares may not be offered, sold, renounced, transferred or delivered, directly or indirectly, in the United States or to any person in the United States. Persons subscribing for D Shares shall be deemed, and (unless the Company is satisfied that D Shares can be allotted without breach of United States security laws) shall be required, to represent and warrant to the Company that they are not a person in the United States and that they are not subscribing for D Shares for the account of any such person and will not offer, sell, renounce, transfer or deliver, directly or indirectly, such D Shares in the United States or to any such person. As used herein, "United States" means the United States of America (including each of the States and the District of Columbia), its territories or possessions or other areas subject to its jurisdiction. In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The Manager is not registered under the United States Investment Advisers Act of 1940, as amended.
- (h) Applicants are encouraged to submit their Application Forms early in order to be confident that their applications will be successful. In the event that applications are received for an amount in excess of the maximum subscription under the Offer, the Directors reserve the right to exercise their discretion in the allocation of successful applications although the allocation will usually be on a first come first served basis. The right is also reserved to reject in whole or in part any application or any part thereof and to treat as valid any application not in all respects completed in accordance with the instructions relating to the Application Form.
- (i) Save where the context otherwise requires, words and expressions defined in this document have the same meaning when used in the Application Form and any explanatory notes in relation thereto.
